

The Value Proposition

Dictate instead of Pointing, Clicking or Typing.

No tedious self editing

Eyes on the patient not the keyboard

No redundant steps for each patient

No more productivity draining clerical duties

The result: OneVoice makes the practice more profitable.

The simple calculation below demonstrates.

ASSUMPTIONS:

Visit time per patient = 15 minutes

Average billing amount per visit = \$150

DTTP = Documentation time per patient

Goal of Daily Patients Seen = 25

METHOD	HOURS	DTPP	PATIENTS SEEN	BILLING AMOUNT	REVENUE	TRANSCRIPTION	NET REVENUE	NET CHANGE	ANNUAL NET GAIN
EMR or Dragon	8	12 minutes	17.7	\$150	\$2,655	\$0.00	\$2,655	Negative \$1,095 per day	Negative \$273,750 annually
OneVoice	8	2 minutes	28.5	\$150	\$4,275	\$100	\$4,175	Plus \$1,520 per day	Plus \$380,000 annually
